

Experience Dyslexia®, A Simulation

Wednesday, Jan. 25, 2017

Marple Newtown High School

120 Media Line Rd, Newtown Square, PA

5:00-7:30 p.m.

Experience Dyslexia®, A Simulation is a lively and thought-provoking program designed to increase awareness of the challenges and frustrations encountered daily by individuals with dyslexia and language-based learning disabilities.

"You can read and read and read about various learning disabilities, but until you actually feel what it may be like, it is difficult to understand."

"The simulation opened my eyes to my daughter's world. That is a precious gift which I will be forever grateful."

"The simulation helped to point out what is not helpful, though it seems like it should be. This was a real think-outside-the-box experience."
