7 members present

Absent: Mr. Baker, Mr. Catania

4. APPROVAL OF THE AGENDA

Mrs. Chandless asked for a motion to accept the agenda, as presented.

Motion was made by Mr. Altieri, seconded by Mrs. Harvey

Mr. Bilker gave the following statement regarding Cary vs. MNSD

The District’s former Superintendent filed a lawsuit in federal court against the District, alleging discrimination on the basis of sex, disability discrimination, and breach of contract. The rules require a party filing a federal lawsuit to specify in the Complaint whether the amount of damages sought is below $150,000 or in excess of $150,000. The Complaint indicated that the former Superintendent sought to recover **in excess of** $150,000 from the District.
The District turned this lawsuit over to its insurance carrier, which appointed a legal team to defend the District. Based upon the allegations contained in the Complaint, the District’s legal team understood that the Complaint sought to recover from the District at least three years’ pay—an amount which is at least $560,000.

I am very pleased to notify our school community that the District’s legal team was able to negotiate a proposed settlement of this federal lawsuit for a monetary amount of only $75,000. This is paid out of an insurance fund—it is not taxpayer money. The District’s legal team strongly recommends this proposed settlement, and the District’s insurance carrier has agreed to pay this proposed settlement amount in full.

The proposed settlement would result in the full and complete settlement of all claims that the former Superintendent asserted in this lawsuit, as well as any and all other alleged potential claims that she has or may have against the District stemming from her employment with the District.

The School Board recognizes the value of dedicating the Administration’s time and energy to efforts that directly enhance the District’s ability to deliver the best quality educational services to our students and families at the lowest possible cost to our taxpayers, particularly since the District has a new Superintendent. Therefore, the School Board sees that there are significant benefits to moving beyond this lawsuit, again, particularly because this settlement is being paid by our insurance carrier. But in order to feel comfortable with approving this proposed settlement, the School Board felt strongly that certain terms be included in the proposed settlement agreement.

For example, the proposed settlement agreement contains an explicit statement that the District does not admit to any wrongdoing of any kind, and that the District expressly disclaims the allegations, along with every scrap of the claims of discrimination, set forth in the Complaint. The Settlement Agreement confirms that the District denies that it violated any contract, rule, law or regulation related to the former Superintendent’s employment. Also, in the proposed settlement agreement, the former Superintendent acknowledges and agrees that neither the settlement agreement nor the furnishing of the consideration for her release of claims shall be deemed or construed at any time for any purpose as an admission by the District of any liability, wrongdoing or unlawful conduct of any kind.

Speaking as one Board member, for the reasons outlined above, I intend to vote in favor of approving this proposed settlement agreement.

Mr. Sereni explained that the School Board has asked him to support what information that the School Board was giving the community regarding the lawsuit and the proposed settlement that the Board will be taking action on tonight. He informed the audience that as legal counsel for the School District, he wanted the community to keep in mind that there are certain constraints the School District has and that Mr. Bilker has given the greatest amount of information as he could regarding personnel issues without overstepping the boundaries on a personnel decision. He also advised that the community has the right, under the Pennsylvania Sunshine Act to make comments during the public comment time of the meeting. Also, the community has the right to ask questions, but the Board does not have to answer any questions during the public meeting. Mr. Sereni advised that as the attorney for the School District it is his job to protect the best interest of the School District and advised that the School Board should take the questions one at a time. He also advised the
audience that under the Right to Know Act, that the community can ask for a copy of the lawsuit once it has been approved by the Board.

There was a brief discussion about the Board making this public without the community having to fill out a Right to Know Request. Mr. Sereni advised that would be okay, once the motion is approved, it would become public record. A majority of the Board could agree to make it available.
